DESCRIPTION

Her gracious form bends and extends to form the Medusa Dining Chair. A stunning piece of modernist furniture with an element of vintage aesthetic. Use these statement upholstered objects to adorn your dining table or pair together to create a sumptuous setting for two complete with a complementing side table in a smaller space.

Carefully constructed using a steel frame, ply and lovingly lathered in Maya fabric. A chunky textured fabric that gives character and substance. Maya is a warm white bouclé fabric, a true white without too much tonal depth.
